## Summary

About the role:

The External Operation Associate Manager (EOAM) manages all external activities related to clinical supply (packaging, labeling and distribution) and acts as the main business partner interface with external vendors and ensures operational excellence within the network of Contract Manufacturing Organizations (CMOs), delivering high productivity, quality and cost efficiency. The EOM will have a Global role in setting up operations responsible for planning, execution and distribution activities performed at external Vendors. The Development Team is guided by our purpose: to reimagine medicine to improve and extend people's lives. To do this, we are optimizing and strengthening our processes and ways of working. We are investing in new technologies and building specific therapeutic area and platform depth and capabilities – all to bring our medicines to patients even faster. Our world-class Global Clinical Supply Organization is able to deliver the right drug to the right patient at the right time. We collaborate with other Novartis groups to support clinical trials around the world to meet the needs of our patients. We are seeking key talent, like you, to join us and help give people with disease and their families a brighter future to look forward to.

Apply today and welcome to where we thrive together!
