Summary

Global Financial Master Data Specialist role provides quality services to Novartis Group entities and is responsible for executing the maintenance of master data used in Novartis, on behalf of internal and/or external customers.

About the Role

Location: Hybrid. CDMX

Your responsibilities include, but are not limited to:

- Processing all master data changes within the system of record (e.g. SAP), ensuring creation and maintenance of finance cost objects, attributes and hierarchies (Customer Master Data, EBX master data, Intercompany, Internal Orders, WBS, Fixed assets), as defined by the Novartis Finance Core
- Participation in Global/Local projects
- Support in KPI's and other analysis preparation
- Responsible for efficient back-up system
- Ensure that applicable policies, processes, and procedures are fully documented and consistently applied through the master data management lifecycle.
- Ensure that any guidelines, enhancements to existing procedures and escalation paths are properly followed for the execution of master data management activities
- Proactively challenge the status quo and comes up with making fact-based recommendations to drive continuous improvement
- Escalate data issues (process and/or technical) and conduct data impact assessments to ensure data quality is maintained to agreed standards.
- Work in conjunction with technical teams to resolve any technical related issue that affects master data integrity and processes.
- Ensure application of agreed Novartis control procedures and actively supports to deliver SOX certification
- Promote a strong and control environment, follow up on audit issues and support the implementation of correcting measures
- Actively support and promote NVS V&B, the NOCC working style by being inclusive, proactive, respectful, and results driven in alignment with Novartis values and behaviors
- Any other duties that may reasonably be required in line with his/her main duties associated with the accountability of the position

Role Requirements :

- University level degree in Business Administration/ Economics/Finance or IT related fields
- Fluent in English both written and spoken, excellent communication skills
- Other languages are a plus
- 1-3 years of relevant experience, with some functional exposure to finance processes (accounting, reporting, tax, treasury, forecasting) from a finance master data management perspective
- Master data concept knowledge and master data application set up
- Preferred SAP knowledge: experience in SAP ECC and Business Warehouse, Familiarization with SAP MDG, Qlik sense
- Demonstrated ability to work effectively in a multi-national organization
- Previous experience within financial shared service centers desirable
